

DHARZE

Dharze is a unique voice in ethereal melodic techno, he has shaped the cultural landscape of Dharamshala by creating a thriving underground music scene in Himachal's alternate spaces. Drawing inspiration from his mountaineering life and winter isolation in the high peaks, his sound is coloured by the seasons and the snow, forging a soundscape that blends music and mountains. His vision of melodic techno has transformed remote mountain venues into dance floors. He has released four EPs that capture the same essence.

PRODUCTIONS → ĀKĀŚA – SONGS FROM THE MOUNTAINS

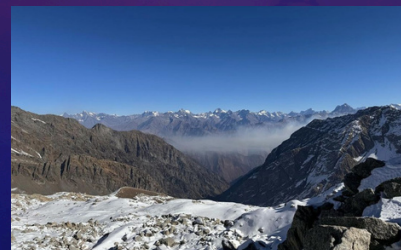

These 11 tracks showcase his ability to craft sounds that are unique, reflecting his journey through India inspired by the quiet birdscares and thunderous storms of the Himalayas to the bustling street markets of Delhi, while bringing novelty into the genre of tech house which is stagnating with repetition. His productions are colourful, yet tailored for global appeal within the progressive and tech house genres.

MIXES

Dharze is an expert in creating themed, emotional DJ sets where the soundscape defines the mood of the space and time. He delivers captivating opening sets, peak time sets, and extended 5-7 hour open-to-close performances, keeping the energy flowing throughout the night. His versatility also shines in B2B sets, where he seamlessly connects with DJs across genres from trance to breakbeat.

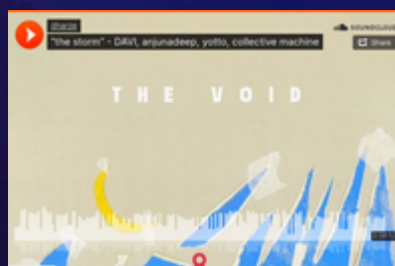

→ Experience his Himalayan Autumn-inspired set

→ "Stone Cold Set" - "these immersive machines", a mix about snow and winter

→ Lose yourself in his 4 hour melodic techno journey "The Storm"
